## Agenda Summary

### Service Excellence

James Sexton, FACHE, President and CEO, Henry Ford Wyandotte Hospital will share with us how *The Service Excellence* approach differs from other quality programs available in today's work world. Service Excellence rekindles the passion of employees and physicians by refocusing them on why they chose healthcare as their profession. This approach focuses on engaging in work that is purposeful, worthwhile and makes a difference in the lives of others. You will be energized and inspired by the passion and enthusiasm exhibited by Mr. Sexton.

His talks include an inside, multi-media look at his bestselling books, including *The Girls from Ames* and *The Last Lecture*. Showing video footage of Dr. Pausch, and sharing lessons learned in his many hours writing *The Last Lecture* with the professor, Zaslow brings audiences unforgettable insights into a story that has captivated people worldwide.
